

## FIRST YEAR EXPERIENCE

### *INTD 1800 University Learning Skills, Spring 2012*

These courses are intended to acquaint students with the University and expand their learning experiences in order for them to adjust to the new expectations they will face. These one credit courses assist students with their transition into the academic and social environment of the University of Connecticut. The transition process is facilitated by faculty or staff instructors, through scheduled activities where students discuss and practice the skills important to success at UConn. Many of the topics and issues covered in class include time management, roommate issues, career options, study skills, and various resources available on campus.
