

Environmental Sustainability

Instructor: Rich Miller

INTD 1820.014
Class #55719

Thursday
9:30-10:20am
Engineering II-323

*'Life is change. Growth is optional.
Choose wisely.'* - Karen Kaiser Clark

INTD 1820.014 Each day we make decisions regarding what we eat and wear, how we travel, and more. Each decision has an impact on the environment around us – some for the better, others for the worse. Today, the importance of this decision making process is amplified by the challenges posed by climate change. But it is not too late to act. In this course you will learn about the concepts of environmental sustainability (with particular emphasis on activities here at UConn) and ways to reduce your environmental impact.

First Year Experience, Spring 2012
