Dual Degree Application

Students seeking enrollment in a dual degree program must first be granted separate admission in both programs. All requirements of each program must be fulfilled and the dual degree candidates are required to complete both programs concurrently. The final award of transfer credit is contingent upon completion of both programs. As there are restrictions on the number of credits and which classes are applicable for the transfer between programs, students should consult their advisors before registering for classes. No credits, in addition to those transferred to a student's social work record as prescribe by the dual degree agreement, may be transferred from another non-social work school or university of higher education. Additionally, all students must comply with the rules regarding credit load limitations. What credits from both programs are combined, without prior approval from their advisor, full-time students may not exceed 17 credits and part-time students may not exceed 8 credits per semester. Students should consult the advisor of the program or Office of Student Services for additional information. **Law and Divinity students must complete a continuous registration form when classes are not being taken at the School of Social Work. This form needs to be completed in order to maintain matriculation at the School of Social Work.**
