Rigorous…challenging…a program that will test your intellectual limits

- The AEA Summer Program offers a unique opportunity for talented students to gain technical skills in Economics, and conduct research with prominent faculty;
- Courses in Microeconomics, Mathematical Economics, Econometrics, Game Theory, and Research Methodology & Data Analysis;
- Up to 12.0 academic credit hours from Duke University;
- Courses offered at two levels: Foundations and Advanced;
- Approximately 34 student participants from across the USA, ranging in age from 20 to 35, from sophomores to master’s students.
- AEA Minority Scholarship is limited to US citizens, and is both need and merit based. A full award includes tuition, room, board, fees, books, transportation, and a stipend of approximately $2000.

Attracting the best and brightest

- Approximately 75% of participants eventually go on to doctoral programs in Economics or Finance; 90% or more go to master’s or doctoral programs in Economics, Finance, Public Policy, Mathematics, Law, or Business.
- Slightly more than half of the participants come from Historically Black, Hispanic, or Native American Colleges and Universities; about one-quarter come from urban state universities. In recent years, enrollment has been divided roughly evenly between men and women.
